- Worked on maintaining and solving bugs for the drivers' licenses system.
- Worked on maintain and developing new features for the writings automated system.
- Tools: PHP, Laravel framework, JavaScript, HTML, CSS, Oracle database (CRUD operations), Xampp.

Freelance (Android, Web, Desktop)

01/2020 – present

Working as a freelancer android, Desktop and web developer.

Graduation Project

Phishing Detection website:

- This project aims to build a system that can utilize machine learning and deep learning techniques to predict phishing websites with a high level of accuracy and minimal processing and prediction time.
- Algorithms and Techniques: Random Forest, information gain (IG),Wrapper,PSO,MLSP and CNN.

Grade: Excellent.

Projects

• Company System

Build a system for a new company using concept of OOP and Oracle DB written in Java.

- **Featured Dictionary**

It was a project that trying to put all the words of English and give the user an option to search on it faster than the other dictionaries using C++, Data Structures.

- **Bank System**

A complete project for all banking transactions using C# and Oracle DB.

Courses and Certificates

- Finish **In28mintues**  full stack course (Java, spring boot 3, React)
- Working in **Amigoscode - PROFESSIONAL Full Stack Developer 2023**  full stack course (java, spring boot 3, DB, Testing, Docker, AWS, React, Angular)
- Android training from FCIS ASU. (**Certificate**)
- Web development training from FCIS ASU.
- **Certificate** in Android from Faculty of computer an information Sciences Ain Shams University.
- **Certificate** in Problem Solving from Hacker Rank.
- **Certificate** from Egypt Army.

Technical Skills

- **Programming Languages:**

- Java
- JavaScript
- Bootstrap
- PHP
- Html
- CSS
- C++
- C#
- Python

- **Concepts:**

- Object-oriented Programming
- DBMS(oracle, MYSQL)
- Data Structures
- Data Analysis.
- Testing (Unit, Integration)
- Solid principles
- Algorithms
- Agile
- Structure Programming

- **Frameworks:**

- Spring Boot 3
- React.JS

Achievements & Extracurricular Activities

- participated in ACM ASCIS in Computer Science Ain Shams University.
- Member in student activity called SUPPORT in Ain Shams University as a technical support .
- Achieved the ideal athlete award for Ain Shams University.
- Achieved the Ain Shams University Football League and won the best player.
